

GLO MOUNT

Patent Pending

Unleash Your Inner GLO

The combination of a flat screen wall mount and an **LED lighting system** is the perfect way to get your glo on anytime, anywhere. The U.S Brown Bear Glo Mount will not only enhance your TV viewing experience, it will illuminate your life. With just the push of a button the Glo Mount turns your ordinary TV into something truly extraordinary. The seamless integration of our Glo Belt LED lighting system **elevates** the look of any interior space and allows you to create the perfect mood for any occasion. What ever you want, when ever you want, you control it all. With the **wireless remote** you can adjust the brightness, color and speed. Lock in your favorite color or rotate through an endless rainbow with a soft gentle fade from one color to the next...or turn up the pace for a rocking' beat and let the party begin. The Glo belt can extend or minimize to fit most flat screen TVs. This well thought design allows for quick and easy installation. **Great for the home, office, club, bar, restaurant, hotel, retail store.....any place, any space.** Take your TV to the next level and come Glo with us.

GLO MOUNT

The seamless integration of the LED lighting system can extend or minimize to fit any size flat screen TV. The brightness and color of the LED system is also adjustable, giving you the ability to create the perfect atmosphere for any occasion or mood. Made from Aluminum alloy and high strength aluminum extrusion material, this mount is light-weight, anti-corrosive and abrasion resistant.

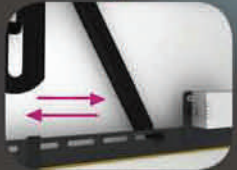

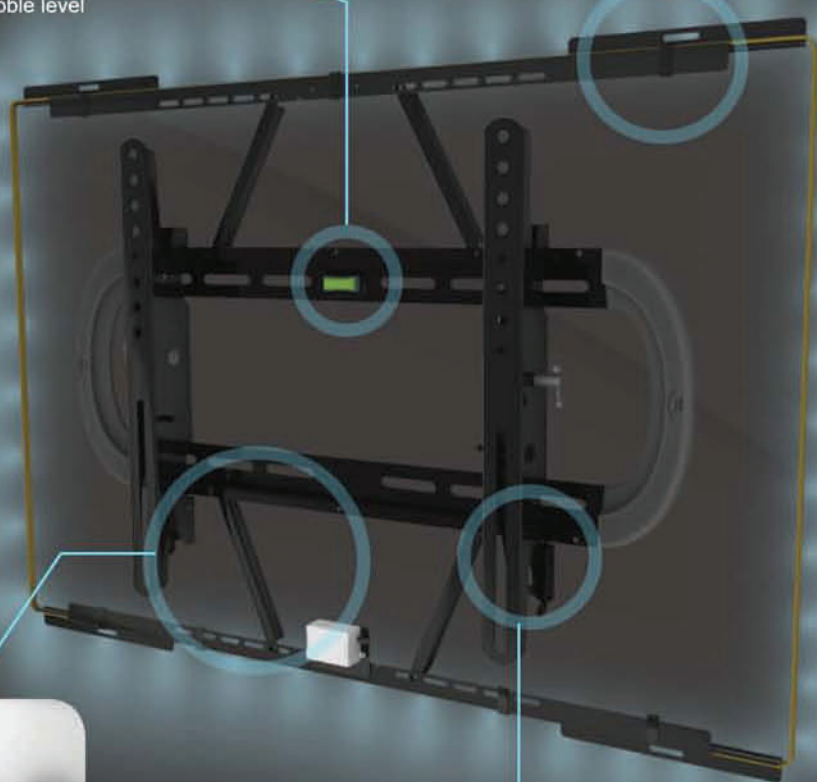

This simple and well-thought design allows for quick and easy installation.
